EXISTING GAS MAINS

1) The information given is believed to be correct and is given without any liability for any error, mis-statement or ommission therein.
2) There may be departures from the sources and depths shown and there may also be gas mains and services of which no record is held. You are advised to dig trial holes or carry out tests to locate the position of the gas mains and services before commencing excavating work.
3) For 600GTP pipeline only, you are not allowed to carry out any trail holes or expose the pipes. Please refer to 'Notes for Working Near PowerGas Transmission Pipeline'.
4) A report must be made to Senoko Gasworks, upon detecting any smell of gas or gas pipes and services of which we have no records. Tel 1800 6752 1800

CONFIDENTIAL

1) Information in this as-built drawing should not be disclosed or forwarded to others without PowerGas' approval.
2) It does not absolve the party concerned from the responsibility to consult and seek PowerGas' concurrence to carry out works near the pipeline at different stages of the project.
3) Do not carry out any trial holes or expose the pipes. Please refer to 'Notes for Working Near PowerGas Transmission Pipeline'
4) Call 6751 8861/ 2/ 3/ 5 for further information.
